Establishing Value for Healthcare Owners:

Lift Technology Benefits for Caregivers, Patients & the Well Environment

Details:

This course provides insight towards the design and integration of patient lift systems in healthcare environments and encouraging safe physical activity for patients and staff. Healthcare owners' financial challenges are real. Avoidable expenses related to workforce injuries, workforce turnover, and adverse patient outcomes can be achieved by including access to integrated technology.

Learning Units: 1

Credit Designation: LU/HSW

Format: Speaker led virtual or in person

Provider: Guldmann Inc. #404108332

Course # Gldmann1 23-26
